

Heatmap showing z-score expression of 7 genes across 8 samples. The color scale ranges from -1 (blue) to 3 (red). The genes are ENSG00000123384, ENSG00000110651, ENSG00000005893, ENSG00000166340, ENSG00000177628, ENSG00000176978, ENSG00000242802, and ENSG00000099785. The samples are Ctr\_S1, Ctr\_S7, RS\_S12, RS\_S16, RS\_S9, Ctr\_S2, Ctr\_S13, and RS\_S6. The heatmap shows that ENSG00000123384 is highly expressed (red) across all samples, while ENSG00000099785 is highly downregulated (blue) in Ctr\_S2, Ctr\_S13, and RS\_S6.
